**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's traverse of the restriction in the reply filed on 05/03/06 is acknowledged. The traversal is on the ground(s) that Figs. 20, 21, 64-66 are not included, it may prevent applicant from electing claims readable on these figures, and the restriction requirement is incomplete. This is found persuasive. Examiner is thankful of applicant pointing out that Fig. 21 in group (a) should be Fig. 51.

The restriction requirement as set forth in the Office action mailed on 03/03/06 is hereby withdrawn.

However, a new restriction requirement including the missing figures is hereby applied.

2. This application contains claims directed to the following patentably distinct species:

Species I, Fig. 2;

Species II, Fig. 3;

Species III, Fig. 4;

Species IV, Fig. 5;

Species V, Fig. 6;

Species VI, Fig. 7;

Species VII, Fig. 8;

Species VIII, Fig. 10;

Species IX, Fig. 11;

Species X, Fig. 12;

Species XI, Fig. 14;

Species XII, Fig. 15;

Species XIII, Fig. 16;

Species XIV, Fig. 17;

Species XV, Fig. 18;

Species XVI, Fig. 19;

Species XVII, Fig. 20;

Species XVIII, Fig. 21; and

Species XIX, Fig. 72.

The species are independent or distinct because they include different structures for different applicators.

Furthermore, this application contains group (a) of following patentably distinct sub-species:

Sub-species 1, Fig. 50;

Sub-species 2, Fig. 51;

Sub-species 3, Fig. 52;

Sub-species 4, Fig. 53;

Sub-species 5, Fig. 54;

Sub-species 6, Fig. 55;

Sub-species 7, Fig. 56;

Sub-species 8, Fig. 57;

Sub-species 9, Fig. 58;  
Sub-species 10, Fig. 59;  
Sub-species 11, Fig. 60;  
Sub-species 12, Fig. 61;  
Sub-species 13, Fig. 62;  
Sub-species 14, Fig. 63;  
Sub-species 15, Fig. 64;  
Sub-species 16, Fig. 65; and  
Sub-species 17, Fig. 66.

Furthermore, this application contains group (b) of following patentably distinct sub-species of the subspecies of group (a) above:

Sub-species A, Fig. 67;  
Sub-species B, Fig. 68;  
Sub-species C, Fig. 69;  
Sub-species D, Fig. 70; and  
Sub-species F, Fig. 71;

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, a sub-species from group (a) and a sub-species from group (b) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument

that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

1. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of

record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huyen Le whose telephone number is 571-272-4890.
